SAFETY

Flagger Training

National Safety Council

Flagging is a complex task that cannot be taken lightly. Flaggers are responsible for protecting workers, repair personnel, and the traveling public from accidents and injuries. How can you provide your flaggers with the training they need to meet their safety responsibilities?

Flagger Safety covers...

- work zone hazards
- flaggers' roles and responsibilities
- employer's responsibilities
- personal protective equipment
- "tools of the trade": flags, radios and paddles
- flagging procedures
- special situations: two flaggers, nighttime flagging, etc.
- flagger etiquette
- and more!

Course Time 6 Hours

Minimum Knowledge Test

Employee Minimum 8

Employee Maximum 10
